The following accounting policies have been applied consistently, to all periods presented, in dealing with items which are considered material to the financial statements:

##### **Basis of preparation: (i) Disclosure exemptions**

The Company has taken advantage of the disclosure exemptions permitted by FRS 101 in relation to presentation of financial statements, statement of cash flows, accounting policies, changes in accounting estimates (standards not yet effective), related party disclosures and impairment of assets. Where required, the equivalent disclosures are included in the consolidated financial statements of Associated British Foods plc.

##### **Basis of preparation: (ii) Going concern**

As set out in Note 13, the smallest group in which the results of the Company are consolidated is that headed by Associated British Foods plc, which confirmed in the Annual Report and Accounts dated 7 November 2023 that its directors have a reasonable expectation that the Associated British Foods plc group has adequate resources to continue in operational existence for the foreseeable future.

After making enquiries and considering the support available from the intermediate parent company described above, the directors have a reasonable expectation that the Company has adequate resources to continue in operation for 12 months from the date of signing of these financial statements. These considerations included the ABF group’s directors’ assessment of going concern (set out in the Annual Report and Accounts dated 7 November 2023 and available at [www.abf.co.uk](http://www.abf.co.uk)), which included the significant levels of cash and undrawn committed long-term facilities available to the group and the ABF group’s directors’ stress testing of cash flow forecasts through to 1 March 2025, and an assessment of any developments since that date that would adversely affect that conclusion. ### **Notes to the financial statements (continued)**

#### **Accounting policies (continued)**

##### **Fixed asset investments**

Unlisted investments are stated at cost, less any provision for impairment. The carrying amounts of the Company's investments are reviewed for impairment at least annually and when events or changes in circumstances indicate that the carrying amount of the investment may not be recoverable. If any such indication exists, the investment's recoverable amount is estimated and an impairment loss is recognised in the profit and loss account whenever the recoverable amount of an asset is lower than its carrying amount. The recoverable amount of an investment is the greater of the net realisable value of the investment and its value in use. In assessing value in use, the expected future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the investment.

##### **Foreign currencies**

The Company's functional currency is pounds sterling. Transactions denominated in foreign currencies are translated into sterling at the rate of exchange ruling at the date of the transaction unless related or matched forward foreign exchange contracts have been entered into, in which case the rate specified in the contract is used. Monetary assets and liabilities denominated in foreign currencies are translated using the rate of exchange ruling at the balance sheet date. Gains or losses on translation are included in the profit and loss account.

##### **Taxation**

The charge for taxation is based on the profit for the period. Deferred taxation is recognised on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets and liabilities are measured on an undiscounted basis at the tax rates that are expected to apply when the related asset is realised or liability settled, based on tax rates and laws enacted or substantively enacted at the balance sheet date. The carrying amount of deferred tax assets is reviewed at each balance sheet date. Deferred tax assets and liabilities are presented on a net basis in the balance sheet as they relate to income taxes levied by the same taxation authority.
